

The figure consists of three vertically stacked plots sharing a common x-axis labeled "Time (seconds)" with major ticks at 0.0000000, 0.4090529, 0.81811058, 1.22716587, 1.63622116, and 2.04527645. Each plot shows the number of threads (# threads) as a step function over time.

- Top Plot:** The y-axis ranges from 0 to 2000. The thread count is 0 until approximately 1.1 seconds, then jumps to 2000 and remains constant until approximately 2.05 seconds, where it drops back to 0. A gray arrow points to the first step at approximately 0.3 seconds.
- Middle Plot:** The y-axis ranges from 0 to 120. The thread count is 0 until approximately 0.9 seconds, then jumps to 120 and remains constant until approximately 1.9 seconds, where it drops back to 0. A gray arrow points to the first step at approximately 0.1 seconds.
- Bottom Plot:** The y-axis ranges from 0 to 120. The thread count is 0 until approximately 1.2 seconds, then jumps to 120 and remains constant until approximately 1.9 seconds, where it drops back to 0. A gray arrow points to the first step at approximately 0.6 seconds.
